EXPERIENCE

Solutions Engineer July 2026 – October 2026

Intellyx IT Solutions | Malabon City, Metro Manila

As a Solutions Engineer Intern at Intellyx IT Solutions, I configured WatchGuard Firebox and Sophos XGS Next-Generation Firewalls, provisioning interfaces, DHCP scopes, VLAN segmentation, and perimeter defense policies (IPS, Gateway AntiVirus, and WebBlocker). Configured Grandstream PBX telephony dial plans and SIP trunking, and assisted in migrating telephony authentication to Sophos firewall gateway security. Additionally, I evaluated enterprise EDR/XDR/MDR suites (SentinelOne, ESET, CheckPoint), collaborated with Indusface on web application VAPT scoping, deployed isolated Ubiquiti UniFi wireless networks, and server PMS, and automated IT ticket routing using Google Workspace Studio AI.

EDUCATION

Pamantasan ng Lungsod ng Valenzuela | Valenzuela City, Metro Manila 2023 – Present

Bachelor of Science in Information Technology

PROJECTS

- **Packet Flipper – 3D Educational Networking Game (CAPSTONE)** *Standalone PC sandbox game built with Unity and C#*
  - Developed 3D mechanics to simulate packet flow, VLAN configurations, and CIDR subnetting concepts as an interactive learning tool for IT students.
- **CEIT Library Management & QR Code Logging System** *Full-stack web application utilizing Laravel, PHP, JavaScript, and SQL*
  - Developed a centralized system for logging academic and research papers via QR code scanning with a web-based administrative dashboard for real-time statistics and usage analytics.
- **Kali Linux Penetration Testing Lab & Kali MCP** *Virtualized security (VMware / VirtualBox)*
  - Engineered an isolated virtual network lab utilizing Kali Linux and MCP integration to streamline packet capture analysis, network enumeration, and vulnerability assessments via Nmap, Metasploit, and Wireshark.

TECHNICAL SKILLS

- **Networking:** VLAN, Routing, SD-WAN (Versa), Firewalls (WatchGuard & Sophos), EDR / XDR / MDR / NDR, PBX Systems (Grandstream), FDAS, Active Directory, Ubiquiti UniFi, Cisco Packet Tracer
- **Cybersecurity:** Kali Linux, Nmap, Wireshark, Metasploit, Reverse Engineering, Web Exploitation, OSINT, Digital Forensics, VAPT, CTF Challenges
- **Programming & Frameworks:** C#, JavaScript, Python, Java, C, PHP, HTML/CSS, Laravel, ReactJS, ASP.NET, Unity, TailwindCSS, Bootstrap, Filament, Shadcn/ui, Alpine.js
- **Database, DevOps & Cloud:** MySQL, PostgreSQL, Microsoft SQL Server (SSMS), MongoDB, SQLite, PHPMyAdmin, Docker, Azure, Vercel
- **AI, Tools & Platforms:** Claude, Codex, Anti-Gravity, MCP, AI Agents, Google Workspace Studio, Git/GitHub, Linux, Windows, VS Code, Swagger, Vite, Jira, Trello
- **Multimedia:** Photoshop, Canva, Figma, Aseprite, CapCut, Premiere Pro, After Effects, Illustrator

CERTIFICATIONS & AWARDS

- **DICT Cybersecurity Professional (Level 1 — Entry-Level)** – Registered in the Philippine Cybersecurity Professionals Registry (PCPR), DICT | *Sept 2026*
- **Certified Cybersecurity Professional (CCP)** – Appkademiya | *Sept 2026*
- **TryHackMe Learning Paths:** Jr Penetration Tester, Cyber Security 101 & Pre-Security Certificates | *May – Nov 2026*
- **OPSWAT Academy ICIP & Cisco Networking Academy:** Introduction to Critical Infrastructure Protection (ICIP) & Getting Started with Cisco Packet Tracer | *May – June 2026*
- **ITlympics 2026 (CTF) – 2nd Place (Silver Medal)** & ***Packet Capture: Beneath the Network CTF*** *– 4th Place (CyberPH) | 2026*
- **Competitive CTFs:** Goldrush Gauntlet 2026 (Ranked 29th), HackTheBox Global Cyber Skills Benchmark Project Nightfall (Ranked 63rd), CSCTF 2026: Total Warfare & SecLeaf Q4 Operations CTF | *2026*
