EDUCATION

Pamantasan ng Lungsod ng Valenzuela | Valenzuela City, Metro Manila
Bachelor of Science in Information Technology | 2023 – Present
Arellano University - Malabon (Elisa Esguerra Campus) | Malabon City, Metro Manila *Senior High School Information and Communication Technology (TVL)* | 2021 – 2023

PROJECTS

- **Packet Flipper - 3D Educational Networking Game (CAPSTONE)** *Standalone PC sandbox game built with Unity and C#*
  - Developed 3D mechanics to simulate packet flow, VLAN configurations, and CIDR concepts to serve as an interactive learning tool for IT students.
- **CEIT Library Management & QR Code Logging System** *Full-stack web application utilizing Laravel, PHP, JavaScript, and SQL*
  - Developed a centralized system for logging academic/Research papers via QR code scanning.
  - Implemented a web-based administrative dashboard to visualize real-time statistics and usage analytics.
- **Pathogenesis: End of Revelation** *Built with unity - Retro horror adventure game featuring shooter game*
  - Designed and developed a top-down retro horror game, seamlessly integrating active shooter mechanics with a virology-themed narrative.
- **The Secret of the old Dormitory** *Visual Novel Game built with Unity*
  - Implemented a custom JSON-based dialogue system to efficiently manage and load text data and player choices within Unity.
- **TQG Merchandising Product Management System** *Web Application built with Vanilla PHP, HTML, and CSS*
  - Developed a complete Vanilla PHP CRUD system allowing seamless, real-time modifications to the product database.
- **Satisfaction Survey System** *built with Laravel, Filament, and React*
  - Built a professional feedback system supporting complex data collection (Rating, Text, Checkbox) with a secure, isolated data architecture.

TECHNICAL SKILLS

- **Cybersecurity:** Wireshark, Metasploit, IDA/Ghidra, BurpSuite, Cheat Engine, Nmap, Cryptography
- **Networking:** Firewall, Routing, VLAN, Crimping, AD/DC
- **Languages:** C#, Java, Python, JavaScript, PHP, HTML, CSS, C
- **Frameworks:** Laravel, ASP.NET, Unity, React, Node.js, Tailwind, Bootstrap, Livewire
- **Database:** MySQL, SSMS, PostgreSQL, MongoDB
- **Tools:** Git/Github, VScode, Visual Studio, Anti Gravity, Cursor, Docker, Cisco packet Tracer
- **OS:** Windows, Linux (Kali Linux), Virtual Machine, Powershell, Bash
- **Multimedia:** Photoshop, Canva, After Effects, Sketchbook, Figma, Aseprite, Capcut
- **Others:** Microsoft office utilities
- **Core Competencies:** Full-Stack Web Development, Game Development, Networking (VLANs, Subnetting, Routing), Cybersecurity, Hardware Troubleshooting

AWARDS & EXTRACURRICULAR

- **ITLympics 2026 – Silver Medal |** – Capture The Flag (CTF) Competition Participant | *March 2026*
- **Goldrush Gauntlet CTF – 30th place / 100 participants –** Capture The Flag (CTF) Competition | *June 2026*
- **Work Immersion Orientation** – Arellano University / Topserve | *Mar 2023*
